

Submitter: Peggy Honyak

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

We, the tax paying citizens of Oregon are already over-burdened with taxes, yet each legislative session brings new fees and taxes. How much more can we take? We are honestly considering moving out of the state we love - do you not see the migration to lower taxed states that have their arms wide open? As a business owner I just shake my head and as we get closer to retirement must consider the options. Does our legislative body EVER talk about how to lower costs? How to spend less and make it easier to do business here? A rhetorical question because sadly, I know the answer. Please stop the insanity.
