

Submitter: David Johnson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Cost of living, fees, and taxes are beating people like me down. Especially people in rural areas like myself. We are fed up with government taking more and more all the while our state is getting worse and worse. But we would rather see it decline in some aspects, particularly in Government, than see all this money taken and wasted. I'm tired my representatives ignoring me and representing special interests and their own agenda.
