

Submitter: Patti LeBlanc

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I urge you to consider the citizens of Oregon. We already have higher fuel prices than our neighboring states due to our road taxes that are in place. The burden of additional taxes will cripple working Oregon. The state needs to work on staying within current budgets. Working families should be Oregon's highest priority.

Please consider the citizens you currently support in your decision.

Thank you.
