Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon is my home. I was born here 75 years ago. My wife and I live off of Social Security that we have paid him to over our lifetime with a little bit of help from a retirement account. In the last four years we have experienced over 20% inflation. It has gotten very more difficult to buy food and pay our property tax. How can we afford to stay living in Oregon and paying higher and higher taxes? Please vote down these tax increases.
