Measure, Appointment or Topic: HB2025

As a life long Oregon resident, honorable discharged US Marine, father and grandfather I've seen many things in our great state.

This ranks with one of the worst attacks on the Oregon residents. This amounts to nothing less that financial rape of the citizens who live here.

Instead of addressing g the real issue, miss use of an already over taxed public, you just increase the taxes.

This bill must not be passed. Please focus on the real issue. Eliminate the over spending and squandering of the funds you have already.
