

Submitter: Grace Wright

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Grace Wright, my parents dairy in Tillamook. I just moved here recently and already being here my parents have fought multiple bills affecting the operation of the dairy. Farmers cannot absorb more taxes or fees without taking a huge hit. It's already hard to afford to live in Oregon. Citizens already take a huge hit on taxes and fees living here as well. I believe the transportation department needs reformation. Please oppose HB 2025 and make an Oregon affordable again.
