Measure, Appointment or Topic: HB2025

We will forever be against higher taxes of any kind.

The wording in this HB 2025 bill is atrocious to business's of any kind, but more so to the small ones and the trucking industry.

We're a small hometown trucking company and to have you tax our fuel, to tax our maintenance, to tax our income even more, to add to the road tax that we already pay an atrocious amount, Is absurd! I thought the Democratic Party was For the people.

You are absolutely standing against the people. You are putting your knee on our necks and suffocating us. Please stop. I oppose this bill. I want you to vote no on it. Stop Taxing us and Start fighting for us!
