

Submitter: Kevin Sawyer

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a retired Police Officer I am opposed to the ever increasing taxes imposed by the legislature. We are being stretched beyond capability and if these taxes are implemented the citizens and especially retirees will be impacted beyond our ability to pay. This will limit our lifestyle and severely impact our budget.

Please find a way to work within the means that you already have from the taxes and income the state has from the lottery and the volume of taxes already in place in this state.

I implore you to listen to the citizens and NOT pass any more taxes.
