

Submitter: Levi Korkow

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

No new taxes. Things are already hard enough this will make things worse and you will drive businesses out even quicker and residents. You need to quit wasting the money you already get from us on on things that are not important and reallocate where it goes. If you truly cared about us and the businesses you would oppose this bill.
