

Submitter: Steven Cook

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This legislation would destroy my ability to work and travel freely throughout Oregon. I can not in good conscience back a bill that will obliterate the ability of Oregonians to live a free and prosperous life. I would also like to ask why the answer is always more money.... That clearly does not work, we need cuts in taxes and better policy for trade and forest management to make this State as great as we all know it could be.
