Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a single mother of 2, I have a very good job. HOWEVER, I am just barely scraping by. More taxes will break me! I only have to drive 10 miles to work, and can barely afford gas currently. Added taxes on gas will make it nearly impossible to get to work. I do live in a border town next to Washington. I can hardly get gas in my home town due to the LONG lines of people coming over from Washington to get the "cheaper" gas. Please DO NOT do this to us! We already pay enough and do not see any positive coming from our tax dollars.
