

Submitter: Marilyn Anderson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon citizens cannot afford a tax increase. My children are all at the max end of their budgets with decent jobs. These are hard-working people trying to raise children and be involved in their communities. Please think about normal Oregonians who live on middle incomes. We don't have the option of telling employers to increase our salaries when we can't meet our budgets. It is not unreasonable if the citizens ask you to stay within your current budget like we have to do every day. Oregon businesses are also operating on less income and higher costs. Other states have seen decreases in gas prices where we have not. Make better choices for Oregon. Vote NO on this extravagant bill.
