Hello my name is Timothy Dwire and I'm 22 years old. What the Democrats are trying to pass here in Oregon is absolutely horrible and ridiculous. I'm working my butt off every day of every week to try to be able to live and survive in this state. What you democrats are trying to pass would make it even harder for me to live and survive in this state. I'm already at a point where the dream of owning a house of my own is impossible and with this it would make it even harder. I already feel like a piggy bank for the government, I work hard just to get taxed to high heavens for the lazy government to sit on there butts and take all my money that I rightfully earned. The government does not think of the average American like they use too they instead use us as slaves to take all are money to pay for the mistakes they made. In the long run I would rather be homeless than work my butt off just to get taxed so much to where I'm making absolutely nothing. If you democrats really care about the people you would do what is right and not try to take more money from us. I love Oregon so much but the way you democrats keep trying to run this state your making this state the worst state in the whole united state of America. In the end I just want all of us amazing people to be treated right and not like a piggy bank for the government, we all work hard for the money we get and we don't need you taking it from us. If you do what is right this state would be amazing. I never thought I would be here writing this but the fact that it came down to this is ridiculous. All I know is just do what is right. I love Oregon and I hope it gets better.
