Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Bad for Oregon's economy, bad for natural resources and industry, bad for Oregonians... This bill is full of problems and doesn't solve any thing. It will create further hardships and stress for the hardworking people of this state who already are struggling. It just doesn't make sense. I strongly urge you to PLEASE VOTE NO on this bad bill. Thank you.
