

Submitter: Eric Winters

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB3390

This is no different than allowing initiative proponent draft their own ballot title \*after\* they have gathered the signatures to qualify to the ballot. The clear purpose is to give the legislative power brokers the time to give outside interests an opportunity to poll politically biased ballot title alternatives to hoodwink the voters.

Every time I think Oregon's Legislature can't possibly sink any lower, it proves me wrong.
