

Submitter: David and Karen Wurdinger

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

We both are retired and on a fixed income. We definitely Oppose this bill HB 2025! It is already hard enough to stay afloat as it is without raising our taxes even more. Maybe try doing what we have to do - and live on the money you are already getting. You expect us to cut our costs, trim our budget, cut back on what we are able to do but you won't do it yourselves with the money we already give you. Our vehicle insurance has gone up, our home owners insurance has gone way up, our property taxes keep going up. Fuel costs were already high the last four years and now you want to tax it even more? Everything has gone up and up except our SS income just goes up a tiny bit.

You are supposed to work for all Oregonians. And we say vote NO on HB2025. We can't afford any more new taxes. Maybe just stop spending it like it isn't your money. You pass this and all you are going to get is more of us in the poor house and more homeless people - because we are already close enough to that now!

NO on HB2025,
David and Karen Wurdinger
