

Opposition-Oregon Transportation Bill

I am writing in opposition to the current transportation bill that is under consideration in Oregon. The tax payers in Oregon cannot take on anymore taxes, we are already taxed enough. Businesses and families are leaving our state because they cannot afford to live here any longer. My elderly Mother and In laws are terrified they will not be able to afford to live if the cost of living continues to rise, and they have no alternative, they cannot move. I am gravely concerned for my adult children and their livelihood. Will they ever be able to afford to buy a home in this economy or will they have to move out of state as soon as many have?

Please consider the everyday average tax paying citizen and please vote no. We cannot afford this exorbitant tax package.
