No new Taxes! Why everytime Oregon misspends or finds a problem they feel the need to increase taxes. Let find a way to cut items from the budget that are never going to help anyone. If you continue to raise taxes I have no other option but to leave the state. I'm sure I am not the only one with this mind set. Turning Oregon in to a Portland look a like will lead to more businesses leaving and 10% of nothing ends up being nothing.
