

Submitter: Brad Ediger

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

It's time for the State to be accountable in how they use the money they already have. Voters want to end waste, fraud, and abuse. And the current party in charge is hiding their actions from public view, which gives the public facing message that they have plenty of actions to hide. The voters want transparency and accountability. Start living within your means, and stop putting such a heavy burden onto the voters of this beautiful State.
