

Submitter: Howard Holt

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I vehemently oppose this bill which will significantly raise taxes on all Oregonians. The Oregon government already has one of the highest income tax rates in the nation and you want to triple it?! You are out of your mind if you think we will go along with this. Taxation is theft, government should be very limited in its scope. We dont need government to do all things, we dont need to depend on government. Only a free-market capitalism will bring true freedom and happiness to folks, and lets us decide what to do with our money.
