

Submitter: Barbara Bomar  
On Behalf Of: Eco Shuttle  
Committee: Joint Committee On Transportation Reinvestment  
Measure, Appointment or Topic: HB2025

I am strongly opposed to HB 2025 and the sharp increase in taxes. This will greatly affect our transportation and delivery customers. We are forced to pass this additional cost onto our customers as well as our employees in order to stay in business.

There needs to be accountability first before raising taxes/fees yet again. I agree that this will hurt the working families without the results promised. Please practice good management with the funds already in place.
