

Submitter: James MacNair

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Good morning,

Please vote NO on these new transportation taxes. Inflation has already made life difficult for our family of five. My salary is not keeping up with the increase in costs of goods and services. Please do not add these new taxes to that burden. We are already heavily taxed in Oregon, so much so that we have actually had surplus funds in recent years. Why then would you add this massive new tax hike?

Please think about all the families like mine that are just trying to get by, and vote NO on this measure.
