

Submitter: Alison Wood

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Living in Oregon is already so expensive: my family and I feel nearly crushed under the weight of our housing, fuel, grocery, and utility costs. Increasing the costs related to buying and owning a car will add to this already-significant financial burden. There is no more money to be had from us. We, along with many other Oregonians, need the endless taxing to stop. Please do not pass HB 2025.
