Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Do you want more people and businesses to leave Oregon? It is no wonder that we have so many homeless people, they can't afford a house or apartment, taxes, utilities, car & fuel, let alone food. How about that people don't pay their income tax so they have money to live. I have a business and half of the employees check goes to taxes or state run programs. I keep sending messages and testimony and it seems like the legislators just ignore the taxpayers (the people they represent).
