Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Dear Oregon Decision Makers,

Please no more tax increases.

I've lived in Oregon for 83 years. I've paid property taxes every year as well as gasoline taxes and hidden other taxes. My property taxes are now way more than my payments on is home ever were. My income is considered average. It is not going to increase to cover these proposed taxes.

We are told to be more efficient and to use wisdom in making financial decisions.

I'm asking you to do the same.

We have DEPARTMENTS in Oregon that have lost track of more money than I've remarked in a lifetime. Oregon contracts with agencies with minimal accountability. Fix the blunders first!

Passing this bill will not help Oregon become a better place. So many of my friends have moved away already. Where did my home state go?

Vote no or you will lose more tax paying citizens.
