We Farm so we adamantly oppose HB 2025

Our Fifth generation farm is located in the Willamette Valley. The increase in taxes from HB 2025 would add \$7000 to our gas tax, a minimum of \$6500 to our payroll tax, and numerous other increased expenses from hidden taxes and fees.

It has been proven that ODOT has misused previous funding with no accountability. HB 2025 is allowing bureaucrats to spend our hard earned money without any real reform, transparency, or accountability. Oregon needs to show Tax payers they can live within their means instead of begging for more to support their lofty special interest goals.

STOP the feeding frenzy and sucking us dry! Many businesses are leaving Oregon, catch a clue.

Thank you

Lori Pavlicek
