

Submitter: Carla Dickerson

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 will cause unreasonable hardships for seniors on Social Security and penalize the working poor. This bill will create more homelessness and more hunger. The homeless will no longer be able to afford a vehicle that provides their only shelter. Mismanagement of the billions of tax payer money is no excuse to demand more from citizens who are already struggling to pay for housing, transportation and groceries. I see what this pattern of unreasonable taxes and fee is doing to other states. Let's not become a part of the same cesspool. Oregonians need support not dictatorship.
