

Dear Legislators,

I am strongly opposed to the addition of new taxes at such a high and alarming increase! You constantly mismanage monies already secured and fund pet projects outside public interest.

A good example is the crazy WUI map that was scrapped! What a waste!

These transportation cost increases are in poor taste and strongly opposed! You are clearly out of touch with your constituents.

Please return to reality and do the right thing and refuse to pass this bill!

Regards,

Sarah Poet
