Measure, Appointment or Topic: HB2025

My wife and I are retired Oregonians. WE grew up not only in this state but also same town our whole lives. We have been watching and paying attention to the goings on on HB 2025. As a retired couple we cannot afford to pay for what HB 2025 is going to do to us!!!! You are once again going to cripple Oregonians with more taxes!!! We now have begun talking about moving out of the state. The thing that should happen first is some accountability for money that came up missing at ODOT. No more taxes!!!!!!
