

Submitter: John Stadler
On Behalf Of: Basic Sanity
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

I oppose this proposed legislation as it adds an even greater burden on the people of this once great state. As a concerned Oregonian, I find the financial burden this bill places on struggling families and individuals unacceptable, especially given the clear evidence of waste and mismanagement within the Oregon Department of Transportation (ODOT).

How much would this obscene level of taxes benefit anyone in the state outside of the Portland metro area? Like virtually NONE? Stop trying to steal more money from your fellow citizens!
