Democrats need to stop taxing us to death. I truly wish that the legislature was more evenly divided, instead of having a super majority and many of us in Oregon feeling like we have no say in anything that is happening and the laws you are passing. Please consider listening to ALL your constituents, not just the ones who support you. Listen to the republicans and try to work with them! It seems like every time we turn around, you are passing a new tax, levy, or restructuring something to have our money diverted elsewhere. How do you all think Oregonians can continue to live with these wild bills? I am also a small business owner and you, in the legislature, already charge so many monthly, quarterly and annual taxes on small businesses many of us can longer sustain that as well as paying soaring labor and food costs. Please do not allow one more tax to go through on this, the end of your session.
