Oregon citizens have had enough of the Democrats policies. We cannot withstand any more taxes or any higher pricing. We have a right to put ballots forth and items we chose to want to vote on. You cannot do what you want to do and ignore the citizens of this state. You have pissed off people to the point businesses are leaving Oregon as fast as they can. Most sensible Oregonians want to now be part of Idaho and yet you continue with your screwed up policies. I vote "no" on these two bills and most others you try to pass in the dead of night. And again against the wishes of most Oregonians!
