

Submitter:

Eileen Marma

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB2977

This is my request for you to support HB 2977 that provides 1% for native wildlife in Oregon. Funds will go to restoring habitats, reducing wildlife-vehicle collisions, and supporting efforts to help people and wildlife coexist.

I appreciate Nature in many forms and am very concerned about keeping native wildlife populations at healthy levels. This includes birds, insects, amphibians, reptiles and the 4-legged critters, all of whose habitats or lives are greatly reduced due to human activities. I enjoy hiking year round to see and hear the animals. I go camping in the warmer months and look for places to explore wildlife refuges, state and federal lands which are home to the wildlife. They are very much a part of the world that I love to live in.

Please support HB 2977.

Sincerely,

Eileen Marma
