

Submitter: Collette Sajko

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This is an extremely excessive budget increase that is also focused on the wrong priorities. Fix our roads, stop the extraordinary amount of money for bus and tri-met expenditures that are underutilized. The people of Oregon cannot afford this. Work on reducing waste. Excessive government spending needs to be approached differently. Big government is spending taxpayer's money - what would you do if this came from your individual pocketbooks?
