Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am on a fixed income and inflation, especially inflation of taxes is hurting my budget. Oregon already has nearly the highest tax burden in the nation and ODOT has wasted that tax money on failed projects and cost overruns instead of maintaining the roads well as expected. At some point I will have to sell and move to escape taxes if this keeps up. Please do not pass this bill and increase my already high taxes.

Sincerely,

Cliff Stephens
