RE: HB 2025 Transportation Bill

Please VOTE NO on HB 2025!!!

ODOT is already failing to maintain the highway and road systems in Oregon due to verified mismanagement and ineptitude. How can the Transportation Committee justify Grabbing MORE MONEY from the transportation businesses, when they have not targeted the current failures of ODOT?

The additional proposed Tax Revenue will not only continue to be mismanaged by ODOT, but more than likely it will be used for NON-HIGHWAY USES.

We are a small construction business that employs more than One Hundred individuals. This is just another DECEITFUL way to target an industry that provides essential services to the larger public without public awareness.

The General Public will only feel the results of these TAX INCREASES when the transportation industry 'is forced' to increase their prices.

Respectfully,

A handwritten signature in blue ink that reads "Sandra Jeremiah". The signature is written in a cursive, flowing style with a large initial 'S'.
