Measure, Appointment or Topic: HB2025

I am writing to oppose HB2025. As a lifetime Oregonian, my family is on the verge of being priced out of living in this state. The hits that continue to come at the pump, in the grocery store, to our income taxes, are killing our chances of living here long term. As a working family in Oregon, I'm sad to hear of our government trying to increase taxes on us specifically, especially when we see Oregon with such a surplus of unused tax dollars. This makes it look like our state isn't budgeting and spending appropriately in the first place. Before laying down another bill, look at what you have going on right now now.
