

Submitter: Dustin James

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a life long Oregon resident and small business owner I strongly opposed this bill. The Oregon government needs to stop the wasteful spending and balance its budget NOT unjustly tax the middle class residents into the poor house. These additional taxes will not hurt the rich as they can afford it, it will not hurt the poor who do not have these "luxuries" and rely on the government dole... It will only saddle the working class with a hearty bill that they can not afford to carry. It will cause a loss in jobs, increased cost of living and force more people to rely on hand outs that the government can't afford.

Please do not let this bill pass.

Thank you

Dustin James
