

Submitter: Nancy Miner

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I was born and raised in this community. I am 75 years old.

The Democrats have run this state into the ground. Any Senator representing the state of Oregon who has gone along with more taxes, rent increases, outrageous child care credits, etc.

The list is just too long, and you should be ashamed!!!

When I grew up here, this was a logging community, farmers and loggers. We managed to have two theatres, drive-in movies, a skating rink, and a community pool. Music lessons and dance lessons were available. We have absolutely nothing for our kids to do. Crime is a big business, and it appears the state is more interested in prosecuting and reaping the benefits.

Oregon was once a beautiful State. It is covered over by the slime and muck that sits in the position to pass laws. You are the biggest burden to the state!!

You need to remember, you will pay for what you do one way or the other. The morals and ethics of the baby boomers are all but gone.
