

Submitter: Robert VerVynck

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HB 2025 is an absolute mockery of the Oregon congress working for the benefit of "we the people". The Oregon congress and senate are completely out of control on bills and spending that attack the very livelihood of the Oregonian people they claim to represent. It is time for the Oregon congress and senate to recognize what is truly beneficial for the people. Stop spending, start budgeting and stop this incessant taxation.
