

Submitter: Darlene Chirman

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Members of Joint Committee on Transportation Reinvestment--While the specifics of what will receive less funding with the proposed changes of less revenue are a bit unclear, I urge you to move the bill forward so that the Legislature can PASS a TRANSPORTATION BILL this session! I am disappointed that there will be less funding for alternative transportation; I applaud the increased funding for transit, and funding for Great Streets and Safe Routes to School for public safety. We must have funding to maintain the roads and bridges in the state, counties and cities. Please move this bill out of committee today and on to votes by the House and Senate! Thank you for all your work on this bill. Darlene Chirman, SE Portland
