Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Enough is enough! My family's income is has remained essentially flat, while due to inflation, goods/services have increased dramatically over the last 5 years. In addition, fees/taxes, including property taxes, have continued to rise. We will eventually be forced to move, or use more of our savings, to cover our monthly expenses. This massive tax increase is so incredibly wrong, and ill-timed, it highlights how out of touch our elected officials have become.
