Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025. I see my tax burden go up every year to where I am being priced out of Oregon. I can not continue to afford these increases on a fixed budget. There are many folks that I know that this is going to make them have to choose paying bills or having food on their tables. I think that the legislature can come up with a better plan to fund these needs. I see companies leaving Oregon because of our tax laws. We are going to end up with a very poor state. Save Oregon and make it somewhere companies large and small want to come here to do business. What I see at this time is that we are not a friendly state to encourage businesses to want to be here.
