

Submitter: Jennifer Abercrombie
On Behalf Of: All tax payers of Oregon
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

Please oppose this transportation bill. Even with the rushed, last-minute amendment to House Bill 2025 that's barely any better than the original disaster.

They're still pushing nearly \$11.7 BILLION in new taxes and fees, including:

Nearly 20 new taxes & fees

Gas tax up 12¢—making it one of the highest in the nation

350% increase in car sales taxes

Triple the tax on our paycheck

\$11.7 BILLION out of our pocket over the next decade

And all this without serious reform or accountability for how ODOT spends OUR money.

Please oppose HB2025 and thank you for your time to listen to the tax payers of Oregon whom already are struggling to keep up under all the current tax burdens in our state.

Respectfully,

Jennifer Abercrombie
Grants Pass, Oregon
