

Submitter: Lori Kaylor

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Thank you for reading this. I've never done one of these before. I'm very much opposed to this transportation Bill that's going to increase costs on so many different things that us every day people use. We are one of the highest tax states in the country. Please be more responsible with our money and find what you need with what you already have.
