

Submitter: Carla Moberg

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I'm to the point of exhaustion with the continuous burdens that this administration in Oregon puts on the backs of taxpayers - and showing little that we get from it. Oregonians are being taxed to death and it's destroying our savings and our ability to have a fairly decent life in this state. These tax measure increases.. expected to raise money on the backs of regular working people and worse, senior citizens, is detrimental to the financial health of Oregonians.... STOP IT. If this passes, it will be remembered during the next election cycle.
