

Submitter: Danetta Lewis

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I live in rural Eastern Oregon. I don't even survive paycheck to paycheck because I don't qualify for any assistance, like SNAP benefits. I don't even have retirement being taken out of my paycheck right now because I need every dollar of my paycheck possible to put food on the table for my family. Our gas prices are higher, and I drive 13 miles one way to work, 5 days a week. I have a son with a young family that also can't make it paycheck to paycheck. He does not get assistance. I am afraid of how this will affect my children, not just me. Please don't impose another tax on our struggling families of Oregon.
