Measure, Appointment or Topic: HB2025

The State of Oregon has been mismanaged since the 1980's when common sense was thrown out and Democratic policies were enacted. Having lived in the state I was born in for 70+ years I am disgusted with our leadership of Kotex, Merkley and Wyden and the democratic monopoly that has a stranglehold on our beautiful state. It is time for our elected officials to listen to We the People of Oregon. We the people deserve better. The roads in Oregon are dangerously underfunded and falling apart and these clowns are worried more about funding for their pet projects.....I have lived in Oregon my whole life and much has changed.....Time for term limits and a balanced state government with attention to what works best for the people of Oregon. I will not be voting yes for this bill that will only cost the people of Oregon more \$\$ and we will still be driving on unsafe roads. Career Politicians are the problem.....quit voting the same old gang into office.....They have proven to be worthless at best! Lynn Goodstein (disgusted 2nd generation Oregonian)
