

Submitter: Sheila Angco

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Anyone who votes for this has completely lost their mind. Oregonian's are taxed on most everything we do currently through fees and outright taxes. Try living in the real world and vote no on this bill.

Also, please go out and walk the streets of your hometown and look at the faces of each person. You will not find much joy anymore which is why I always make a point of smiling or saying hello when I can. People struggle daily and government is not the solution.
