

Submitter: Tony Monaco

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025 and so should you!

Oregon is already one the highest taxed states in the US and here we are discussing how we can be THE highest taxed state. In a time when Oregonians are struggling just to get by our government is trying to figure out how to take more. In a time when we should be looking at how to be more fiscally responsible we are looking at adding services or changes that we cannot afford as Oregonians are already paying for the never ending mistakes, fraud and wasteful spending of government entities. ODOT has continuously failed audits and has shown they don't know how to manage their funds properly yet we need to give them more money to do the job they are already failing at? No consequences for it either. This is just one example of many, OHA, DMV and many others have proven that they can not manage their funds properly and have lost the trust of Oregon citizens. Until our government holds those accountable for the mismanaged and wasted funds already provided by Oregon tax payers we should NOT have to cover the costs of Oregons irresponsible and duplicitous government!

Vote NO on HB 2025
